### EMMA

Meet beautiful Emma! She looks great now that she can breathe easier and received a good grooming, but that was not so much the case upon her arrival to Maryland Westie Rescue. This senior girl needed cleaning and she could barely breathe. Even walking the shortest of distances was a big struggle for her. We don't know how long Emma's former owners let this go on, but sadly we suspect it was for quite some time. We think we could all agree that must have been a terrible way for her to live, gasping for every breath. Once in our care, Emma was diagnosed with pulmonary fibrosis, a canine lung disease that is treatable, but does not have a cure. She's on lots of meds, inhalers, (yes, they make inhalers for dogs!) and she is finally comfortable & living her best life. Due to the extent of the daily care she needs combined with her age, we cannot adopt her out, but don't worry! With our rescue, she will be loved for the rest of her life receiving the extensive medical care and treatments she needs to be as comfortable and healthy as possible in our long term foster care program. Your support and donations make our long term foster care and hospice programs possible for dogs just like Emma! THANK YOU!
